Job Title: Freelance Full-Stack Software Engineer

Job Location: Hybrid (on-site and remote)

Role Summary:

We are currently seeking a Freelance Full Stack Software Engineer to collaborate with our technology team at Cosecha Partners. This role supports our mission of promoting regenerative organic practices within our network of more than 15,000 smallholder farmers across Central America. The ideal candidate will contribute to the development of scalable digital solutions by delivering high-quality software modules, integrating innovative technologies, and supporting initiatives that leverage data and Artificial Intelligence to accelerate the adoption of regenerative agroforestry systems.

Requirements:

- 3+ years of experience as a Full Stack Software Engineer.
- Strong experience developing backend applications using .NET (C#).
- Experience developing Android applications using Kotlin.
- Experience developing web applications using Angular.
- Strong knowledge of PostgreSQL.
- Experience designing and consuming REST APIs.
- Experience using Git.
- Ability to work independently and deliver software based on agreed milestones.
- Professional English proficiency.
- Degree in Computer Science, Software Engineering, Information Systems or related careers.

Desirable:

- Experience with WebRTC.
- Docker.
- CI/CD.
- Google Cloud Platform (GCP).
- Firebase or Firestore.
- Experience developing or integrating Artificial Intelligence solutions, AI APIs or Machine Learning services.
- Experience working in Agile environments.

Key Responsibilities:

- Develop software modules and end-to-end features.
- Build backend services and REST APIs.
- Develop Android applications using Kotlin.
- Develop Angular web applications.
- Optimize SQL databases.
- Participate in technical discussions when required.
- Deliver high-quality software within agreed timelines.
- Collaborate effectively with the internal engineering team.

ARE YOU A MATCH FOR US?**DNA/CHARACTERISTICS OF IDEAL CANDIDATE(S):**

- Critical thinking and passionate about creating vision and being close to innovation in pioneering initiatives with a path not yet defined.
- Beginner's mind and fosters innovation, takes initiative and is the voice of change.
- Takes "ownership" of what he does.
- Ability to manage up and showcase your work to supervisors and peers and show results in both face-to-face and hybrid modes of working.
- Experience working for start-ups and flexible and adaptable with strategies as the market demands.
- Multifaceted in skills and superpowers, and with unlimited appetite to learn and continue to evolve as a professional.
- People/emotional intelligence to work in both horizontal and vertical structures, proactive with problem solving skills, ability to work autonomously.
- Humble in attitude, open to feedback.

Application Process

In the work experience section, your resume should present only the main achievements of your leadership in each of your previous positions, avoiding describing processes. If you are interested, all applications including CVs must be received through our online application portal here cptalent.web.app/4n8MAU. The application period will be open until we find the right candidate for the vacant position. Once the process is finalized, we announce all filled vacancies on LinkedIn.
